

The Bourton is protected on three sides using 16mm tanalised shiplap T&G cladding making it ideal for all weather protection. The galvanised steel gated front offers high security with spring bolt fastenings and separate padlock facilities.

The Bourton range of kennels are available in three standard widths: 1.2m (4'), 1.8m (6') and 2.4m (8') all are 2.4m (8') deep, the 1.8m and 2.4m kennels are also available as doubles. The internal kennel box is removable and contains a standard pop hole with dimensions of 17" high x 12" wide.

This range is ideally suited for small to medium dogs. If you require a high quality value for money attractive practical kennel solution for your dog the Bourton is the perfect answer.
